- Years Active: 2020- present
- Country: Argentina / The Netherlands

Juli Hope / Vocals
Yamil Ladner / Guitar / Vocals
Rutger Klijn / Bass
Eva Levina / Drums

Biography

Formed in Buenos Aires, Argentina, in 2020 by singer **Juli Hope** and guitarist **Yamil Ladner**, **Abstracted Mind** is a Symphonic Metal band blending powerful orchestral arrangements with modern and progressive metal. Drawing on their classical training at Buenos Aires' National Conservatory Ástor Piazzolla, both founders bring a strong orchestral sensibility to the band's music.

Originally conceived as a studio project, the band debuted in 2021 with three self-produced Spanish-language singles that laid the foundation for their distinctive sound and artistic vision.

Later that year, the duo relocated to the Netherlands and began writing in English, opening their music to a broader European audience. The project evolved into a full live band with the addition of **Rutger Klijn** on bass and **Eva Levina** on drums. Since then, Abstracted Mind has delivered energetic performances across the Netherlands and appeared at the 10th Edition of the **Laurus Nobilis Music Festival** in Portugal and **Female Fronted Metal Violence** in Belgium.

Following the release of the singles *Eternals* and *Despair* in 2024, *Where It Begins* in 2025, and *Rise Again* in 2026, **Abstracted Mind** reached a new milestone with the release of their debut album, **Break Down Your Fears**, on September 18, 2026. The album brings

together the band's evolving blend of progressive metal, cinematic orchestration, and emotional intensity. On the same day, the band also released the official video for *Shattered Mirror*, offering a visual counterpart to the album's themes of inner conflict and self-confrontation.
